Players score ↑ ↑ ↑ Markers score

First 9 holes

Description

8 - 4 - 2 - 1 are «counters» when a ⊗ is made, it adds this (Golf Stroke) value into Peg-it reader program by analyzing.

Play 3 holes, compare player and markers written results and do the ⊗ registrations in the corresponding value box(es)

For best result, use a pencil with hardness 6B (Due to camera detection of ⊗ marks)

A friction pen may also be used. This makes it possible to erase and reuse the cards several times.

Function of this card:

This card is a guide for golf players that has not used the Peg.it score card.

Its only the Players score that are made with X's as well as the handwritten numbers, for both player and marker.

The Markers score will be seen when until 4 cards are analyzed.

The analyzing process includes ORC (Optical Character Reading) i.e. that player ID number at top of the card makes it possible to get the players name hcp etc. from the Peg-it tournament program from the computer.
